

Calling all artists!

Inspiration Through Art

is seeking new masterpieces to display!

Easterseals has created an opportunity for children and adults with disabilities to gain "Inspiration through Art." Many of the people we serve with disabilities receive therapy services and attend appointments at the Easterseals Rehabilitation Center at 3701 Bellemeade Ave. in Evansville. In many cases, they attend at least once a week, every week for extended periods and some clients will receive services for many years. We are focused on making our facility reflect the great work our therapists are doing and finding ways to educate and engage our clients in community resources and activities. One great way to do that is through art! We installed a hanging art display system to give our local artists an opportunity to display their work in a public facility that has significant daily foot traffic and offer people with disabilities exposure to high quality art. We expect that they will develop greater appreciation for art and even develop an interest in completing quality art projects themselves. We will be displaying the artwork for approximately four-month periods, rotating the work three times a year. We are allowing the artist to price their pieces if they choose. There will not be an entry fee. The Walker Display system is in the main hallway of our facility, so there is a lot of traffic coming through and seeing the work. We ask that the art be appropriate for children to see.

This next installation will be on display beginning **January 5, 2018.**

We will be accepting submissions from people with disabilities and may designate a display space to highlight artwork completed by people with disabilities. Beginning later this year, we will begin to offer art workshops to educate and assist people with disabilities and others who are interested in completing their own artwork.

This project is part of our ongoing commitment to

empower people with disabilities to engage in meaningful activities that improve their self-esteem, offer meaningful activities and potentially offer revenue opportunities for them.
